THE

EVENING JOURNAL ALMANAC.

1871.

Eclipses for the Year 1871.

There will be four Eclipses this year, as follows:

- I. A Partial Eclipse of the Moon, January 6th, in the evening; visible in the eastern United States, and east of Alabama and Minnesota, the Moon rising more or less. The middle of the eclipse will be visible in the northeastern part of the United States. Size there 8.316 digits on the southern limb.
- II. An Annular Eclipse of the Sun June 17th; invisible in America.
- III. A Partial Eclipse of the Moon, July 2d, in the morning; visible in California and Oregon. The eclipse begins at San Francisco, California, and in Portland, Oregon, at 4h. 16m. in the morning; and the Moon sets eclipsed in part in the Pacific states.
- IV. A Total Eclipse of the Sun, December 11th; invisible in America.

MORNING STARS.—Venus from September 26th to end of the year. Mars not this year. Jupiter from June 30th to October 22d. Saturn until March 30th.

EVENING STARS.—Venus until September 26th. Mars all the year. Jupiter until June 30th, and after October 22d. Saturn from March 30th to end of the year.

PLANETS BRIGHTEST.—Mercury, February 13th, June 13th, and October 6th, rising before the Sun; also April 20th, August 17th, and December 12th, setting soon after the Sun. Venus, August 20th, and November 1st, being at the latter time an early Morning Star. Mars, March 19th, rising about sunset. Jupiter not this year, not reaching the opposition. Saturn, June 28th, rising about sunset.

THE STAR SIRIUS.—Many things combine to render this brilliant star an object of profound interest. Who can gaze on its pure silvery radiance, and reflect how many ages it has adorned the heavenly dome with its peerless luster, and how many generations of mankind have rejoiced in it—and among them all the wise and the good and the great of history, without awe and admiration! In ancient Egypt, it was an object of idolatrous interest. It was then of a brilliant red color, but is now a lustrous white; and the cause of this change of color, as well as the nature and period of the revolution it denotes in the star itself, are wholly unknown. Its distance from our earth is not less than 1,300,000 times our distance from the sun; and its light must travel twenty-two years to reach us! Another circumstance of deep interest connected with it is, that it has changed its position, during the life of the human family, by about the apparent diameter of the moon; and that astronomers, detecting some irregularities in its motion, have been convinced that it had a companion star—which they thought must be non-luminous, since their telescopes could not detect it. But Mr. Clark, with his new and powerful achromatic telescope, has found this neighbor of Sirius, hitherto invisible, and verified the conclusions to which astronomers had been led by reasoning on the facts they had ascertained.

LOCATING THE STARS.—The German Astronomical Society has divided the work of cataloguing the stars between eleven observatories in different parts of Europe, and the Chicago Observatory in this country. This work, which has not been done since 1820, will occupy from five to eight years, every star requiring at least two observations. The portion of the heavens assigned to Prof. Safford of Chicago contains 8,000 stars, and he expects to make 20,000 observations with his magnificent telescope.

UNSUSPECTED SOURCES OF HEAT.—Not only do the stars fill the night with beauty by their radiant light, but it is now ascertained that the most brilliant give out a perceptible amount of heat. Through the agency of a delicate instrument called the galvanometer, and the telescope, it is easy to register the amount of heat given out by several of the starry orbs. It is a singular fact, that, though the full moon so far outshines them, the same instrument will accord scarcely a trace of heat from the luminary that shines with reflected light.

ALBANY EVENING JOURNAL.

DAILY, SEMI-WEEKLY AND WEEKLY.

While the JOURNAL will, as hitherto, maintain its distinctive political character, it will, more than ever, be made a FAMILY NEWSPAPER. Increased attention will be paid to the Commercial, Local and Miscellaneous Departments, while additional care will be taken to keep fully up with the news of the day.

It is especially our purpose to render our WEEKLY additionally attractive. Although it will be impossible to crowd into it all that will appear in the Daily, we shall make such selections as will keep its readers informed of whatever is of importance or interesting in the busy world.

In the ample pages of our SEMI-WEEKLY we will be enabled to give all the news published in the daily. To those who, from the want of mail facilities, cannot take the Daily, the Semi-Weekly will be found valuable.

Terms.

DAILY..... \$9 00 per year in advance.
SEMI-WEEKLY..... 4 00 " " "

WEEKLY.

Single copies..... \$2 00 per year.
Ten copies..... 15 00 " "
Twenty copies..... 30 00 " "

An extra copy for every 10 subscribers.

As a reliable medium of Political information, it is conceded to have few equals. Located at the Capital of the chief State in the Union, it possesses facilities for obtaining information not within the reach of other newspapers. Its Legislative reports are the fullest and the earliest that are published. Its Telegraphic Reports from Washington enable it to give the Congressional proceedings on the same day that they occur. The proceedings of Conventions, Political or otherwise, Speeches, Addresses and Public Documents, all find place and comment in its columns.

Commercial Department.

Especial care is devoted to its Commercial Department. Its position at the point where the great stream of Western trade divides, enables it to give the earliest, most impartial and reliable reports of the daily changes in the Market for Western Produce, Country Produce, Lumber, Cattle, New York Markets daily (by telegraph), New York Sales of Stocks, daily, and a Weekly Stock Table, New York Wholesale Price Current, Markets in the various cities, receipts by Canal, Bank affairs, New Counterfeits, &c.

General News Department.

Its General News Department is in experienced hands, and constant pains are taken to render it acceptable, both by giving all interesting or important intelligence, Foreign or Domestic, from the Mails and by Telegraph, and by carefully excluding any thing which even a fastidious sense of propriety would deem unfit for the perusal of the young or of the Family Circle.

Literary Department.

A peculiar feature of the Literature Department of the JOURNAL is an entire page devoted every Saturday night to selections carefully culled from the latest publications of best known authors, frequently in advance of their issue in book form, and from distinguished novelists, English, French and American; Biographical and Historical Narratives, Sketches of Travel and Character; Tales, Poetry and Humor, from the best authors, will also be found in this department of the paper.

Local Department.

In the City News Column will be found all matters of interest transpiring in Albany. The local news of the neighboring towns and counties, Troy, Cohoes, Saratoga, Hudson, Schenectady, Lansingburgh, Greenbush, &c., is also given regularly.

Circulation.

The Circulation of the JOURNAL is larger than that of any other paper in the City or in the State, outside the City of New York. It extends to every county in the State and every State in the Union, but its principal field of circulation is along the line of the great thoroughfares of Western Trade. These facts commend it as a HIGHLY DESIRABLE MEDIUM FOR ADVERTISERS.

All letters should be addressed to

A SIGNIFICANT CHANGE.—One of the noteworthy changes now taking place in India, where the superstitious customs introduced and enforced by an intolerant priesthood, that seemed fixed and unalterable, are giving way before the light of reason and true religion, was witnessed at Bombay in June. It was the first public marriage of a Hindoo widow, and took place in the presence of numerous spectators, several of whom were Europeans, under the auspices of the Hindoo Widow Marriage Association. Both of the parties were Brahmins, the bridegroom being twenty-five years of age and the bride seventeen. A strong feeling against the cruel law forbidding the marriage of widows is growing up throughout India.

FOREIGN IMMIGRATION.—During the last fifty years, nearly seven million alien passengers and immigrants have come to this country, from thirty-four different nationalities. The immigration the past year was very large. Over 10,000 emigrants left Europe in one week, and over 5,000 arrived at Castle Garden in one day in April. Our annual increase of population, by immigration, and by the surplus of births over deaths, is now about 1,100,100.

XLIST CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years' to the House of Representatives. An act approved July 26, 1866, requires the Legislature of each State which shall be chosen next preceding the expiration of any Senatorial term, on the second Tuesday after its first meeting, to elect a successor, each House nominating *viva voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected; and if they do not agree, then balloting to continue from day to day at 12 M. during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of 20 cents per mile. To this should be added the following vote cast, but not, for some reasons, returned:

In Cass county 176 more votes were cast for Gen. Averill than are included in the canvass, the vote of one or two precincts not having been properly returned. In Carlton county Gen. Averill received 370 more votes than were returned, the official county canvass having been forwarded before the votes of two precincts were received by the County Auditor. Wilkin county cast 52 votes for Averill and one for Donnelly. If these votes which were all legally cast had been properly returned, Gen. Averill's majority would be 3,268.

NEW YORK LEGISLATURE.

SENATE.

The Senate consists of 32 members, who are elected in November every alternate year (1869, 1871, etc.), and hold their office for two years from the first of January next succeeding. The State is divided into 32 districts, each choosing one Senator. The Senators receive a compensation of \$3 per diem during the session, but not for more than one hundred days. The Lieutenant-Governor is, *ex officio*, President of the Senate.

Clerk, HIRAM CALKINS (Dem.), of New York.

First District

Consists of Suffolk, Queens and Richmond counties. Population, in 1870, 153,851; in 1865, 129,075. The Senator is

SAMUEL H. FROST (Dem.), of Marshland, Richmond county. Mr. F. was born in New York city, August 2, 1818. His ancestors were among the early settlers of Long Island, and were Quakers, except his father, who, however, while rejecting the peculiar tenets of the sect, maintained their solidity and simplicity of character; he was a mechanic, and educated his son at White Plains Academy. Upon leaving school, Samuel engaged for several years in business in New York city, with considerable success; about the year 1840 he removed to Richmond county, where he purchased a fine farm, on which he has ever since resided. Mr. Frost was formerly a Whig, and was a warm admirer of Henry Clay, and upon the demise of that party, identified himself with the Democracy; he was Supervisor of Westfield six successive terms, and Superintendent of the Poor for Richmond county twelve years. He was elected to the Senate by a vote of 8,701 against 7,843 for Gilbert C. Deane (Rep.). Vote, in 1867, Democratic, 11,226; Republican, 7,890. Senator F. is a member of the Committees on Commerce and Navigation, Poor Laws, Public Buildings, Agriculture and Joint Library, and is Chairman of the two latter.

His parents were natives of New England, and his father a physician, and a graduate of Dartmouth College, N. H. Mr. P., at an early age, attended St. Lawrence Academy, but was compelled to relinquish his plan of entering college, by reason of ill-health; subsequently he entered the law office of Judge Henry L. Knowles of Potsdam, and completed his legal studies with the Hon. Job Pierson and Wm. A. Beach, in Troy. He was admitted to the bar at Albany, in 1851, when only twenty-one years of age. A sojourn of three years in St. Augustine, Florida, became necessary, and resulted in removing a pulmonary weakness which had become alarming, and during this time he occupied an office with the Hon. Isaac Bronson, now deceased, then United States Judge for the Eastern District of Florida. Returning from the south, Mr. P. took up his residence at Canton, St. Lawrence county, and at once became identified with politics, for a number of years in succession

attending the Democratic State Convention as delegate; he believed in energetically prosecuting the late war against the rebellious peoples of the south, and rendered himself so popular by his zeal, that in 1862 he was elected County Clerk on a Union Ticket, over the regular Republican nominee. Mr. P. removed to New York city in 1865, and was soon after employed as counsel to the Merchants' Union Express Company, which position he still holds. In 1866, he took up his residence in Brooklyn, and in 1867 was elected to the Senate, and re-elected in 1869. "We do not hesitate to pronounce the Albany Law Journal the best Legal Periodical in America."

THE ALBANY LAW JOURNAL.

A WEEKLY RECORD OF THE LAW AND THE LAWYERS.

THE LAW JOURNAL has already reached a circulation larger than that of any other Law Publication in the country. Every number contains

Articles on Legal Subjects, Discussions of Important Decisions, Abstract of the Latest Decisions of all the States, Digest of Recent U. S. Courts Decisions, Digest of Recent English Decisions, all Legal News of the Week, Reviews of New Law Books, and other matters of importance to the profession. The opinions of men every way qualified to judge, justify the publishers in saying that the LAW JOURNAL is the

BEST LAW PERIODICAL IN THE WORLD!

IT IS PUBLISHED EVERY SATURDAY, and each number contains twenty-four royal octavo double column pages, making over twelve hundred pages a year, and giving annually double the amount of reading matter contained in any other Law Periodical published in the country. To indicate the manner in which it has been received by the Press and the Judiciary, we give a few

Extracts from Notices and Letters.

From the Law Magazine and Review (England).

"One of its pleasantest features is that it contains a mixture of the purely legal with what we may venture to call the literary legal. It is a compound in other respects of one of our legal newspapers and a legal magazine. It is rare in legal newspapers to have such a variety of readable matter. . . . The legal reporting seems carefully done; and, altogether, the 'Journal' is a credit to the legal profession of the United States, and will be found of interest in this country."

From the Wisconsin State Journal.

"We cannot remember when we have picked up a new publication that gave such unmistakable evidence, as this journal gives, of having the right man in the right place."

From the Troy Daily Press.

"The 'Law Journal' is, beyond question, the ablest Law Periodical published in the country, and will prove a most valuable auxiliary to every lawyer."

From the Dodgeville (Wis.) Chronicle.

"It is altogether the best Law Publication in America."

From the Chief Justice of the N. Y. Court of Appeals.

ALBANY, December 23, 1870.

ISAAC GRANT THOMPSON, Esq.:

My Dear Sir—I am authorized by all the members of the court to express to you our unqualified approval of the ALBANY LAW JOURNAL, edited by you. We regard it a very valuable publication, which cannot fail to be favorably appreciated by the profession generally. It would be difficult, I think, to suggest any improvement.

Very truly yours,

S. E. CHURCH.

THE JOURNAL is not local or sectional either in its plan or contents, but is intended for the profession of the whole country.

From the Chief Justice of the Supreme Court of Illinois.

GALESBURG, ILLINOIS, Dec. 14, 1870.

ISAAC GRANT THOMPSON, Esq.:

Dear Sir—I have been a reader of the ALBANY LAW JOURNAL from its commencement, and in my opinion its editorial management has shown a remarkable talent for rendering it instructive without becoming dry, and entertaining without being frivolous. It certainly deserves the patronage of the profession. Yours very truly,

C. B. LAWRENCE.

From Mr. Justice Boardman, N. Y. Sup. Court.

"I consider it a work necessary to the safety of every practising lawyer. The abstracts of current decisions, the discussions of novel or doubtful legal questions, the criticisms of reports and reporters, and the brevities of wit and wisdom in its pages are of deepest interest to every lawyer fit to be a lawyer."

From Mr. Justice Hogeboom, N. Y. Sup. Court.

"On the whole, I regard your journal as constituting a valuable as well as agreeable addition to the best of legal publications, and the frequency of its issue makes it convenient and interesting to be consulted by those who desire to keep up with the current decisions of the courts as well as with the leading subjects of legal decisions. It is always a welcome visitor."

From Mr. Justice Patter, N. Y. Sup. Court.

"It is invaluable to the bar as well as the bench. Its editorials are written with ability; its reviews fair and candid; its contributors generally exhibit great research and ability, and the rich and genial spirit manifest in its selections make it the treat of the hour of its perusal."

A Family and Religious Newspaper of the largest class.

Established in the City of New York forty years ago, as the advocate of REVIVALS, TEMPERANCE and MORAL REFORM, as well as of MISSIONS, and the other great religious movements of the day.

“One of the Oldest and Best Religious Newspapers in the Country.”—Henry Ward Beecher.

“Approaches my ideal of a metropolitan Religious Newspaper.”—Rev. Dr. Atwater, of Princeton.

From the New York Tribune.

Some young men in this city, wanting a Temperance, Anti-slavery and educational organ among the religious newspapers, started, forty years ago, THE NEW YORK EVANGELIST. The only one of those young men now left is William E. Dodge, who can doubtless scarcely recognize in the large and prosperous journal, which has lately passed under the entire control of Henry M. Field (its half owner and editor for sixteen years past), the bantling of his youth. THE EVANGELIST is doing better than ever since the union of the Old and New School branches of the Presbyterian Church; and deserves to do better.

From the New York Times.

The well-known religious journal, THE NEW YORK EVANGELIST, has passed entirely into the hands of Rev. Dr. Henry M. Field, who has been for many years its senior editor, and is now its sole editor and proprietor. His late partner, Rev. Mr. Craighead, is with his family in Europe. THE EVANGELIST is one of the oldest papers in the city, being in fact one of the landmarks of the New York Press. It has gained largely by the union of the Presbyterian Church, which in wealth, intelligence and general influence is not second to any religious denomination in the country.

From the Independent.

The publisher of *The Independent* extends his fraternal and Christian salutation to the publisher of THE EVANGELIST—Rev. Henry M. Field, D. D.—who has recently become sole proprietor as well as editor-in-chief of that excellent and popular religious weekly. We know that under the sole control and management of Dr. Field THE EVANGELIST will take a fresh start, and richly deserve increasing patronage. It is now altogether the best and ablest weekly in the interest of the Presbyterian Church, and its readers should be increased by tens of thousands. We wish Dr. Field abundant success and prosperity in his good christian work, and we believe a great multitude will join us, heartily saying Amen!

THE BEST! THE BEST!

The Scientific American.

This is unquestionably the most popular and interesting journal of its class in the world. It has been published seventeen years and has a larger circulation than any similar journal in existence. It is a weekly paper of 16 pages, and is devoted to SCIENCE, DISCOVERY, INVENTION, MECHANICS, MANUFACTURES, and the whole range of INDUSTRIAL ART.

Most of the Inventions patented in the United States are illustrated in its columns, the Engravings being most superb and beautiful. Each number contains 16 pages of matter and from 8 to 10 Engravings. The numbers for a year make a splendid volume of 832 pages of useful and entertaining matter, and

about 500 Engravings. A full report of all the Patent Claims are published officially each week. It is printed weekly on fine white paper at the marvelously low price of \$6 per year or \$1 for four months. Specimen copies sent free. Address—
